# WYDOT Mission, Vision, Values, and Goals

## **Vision Statement**

Excellence in Transportation

## **Mission**

To provide a safe, high quality, and efficient transportation system.

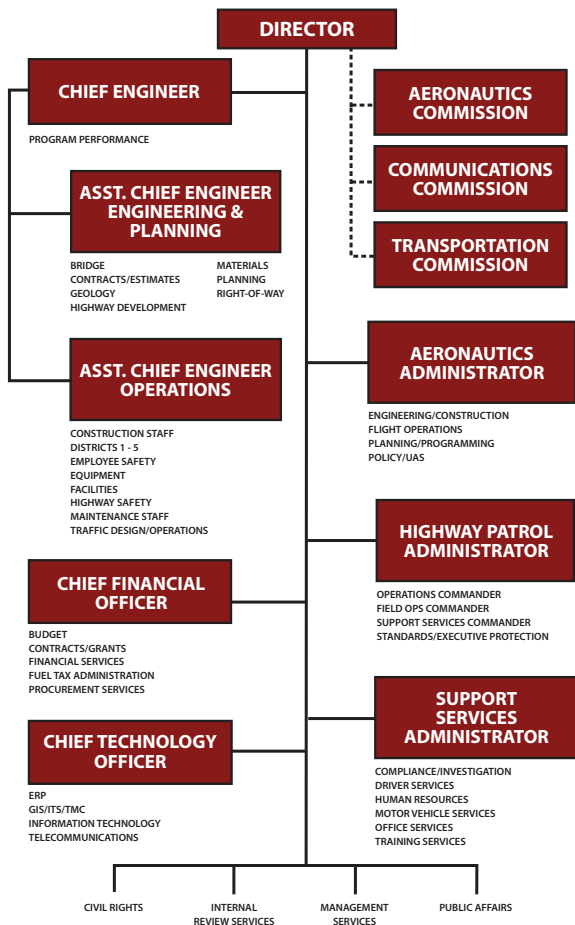

## **Values**

- Honesty
- Accountability
- Commitment
- Respect
- Innovation

## **Goals**

- Improve safety on the state transportation system.
- Serve our customers.
- Improve agency efficiency and effectiveness.
- Take care of all physical aspects of the state transportation system.
- Develop and care for our people.
- Exercise good stewardship of our resources.

# Road and Travel Information

## Phone Numbers:

Dial 511

Toll-free (888) WYO-ROAD  
(888) 996-7623

## Website:

[www.wyoroad.info](http://www.wyoroad.info)

## App:

*Wyoming 511* is the official road condition and traffic information reporting app of the Wyoming Department of Transportation.

## Emergency Phone Numbers:

Wyoming Highway Patrol, REDDI (Report Every Drunk Driver Immediately) and all other emergencies..... 911

Toll Free within Wyoming: .....(800) 442-9090

Cellular phone calls from within Wyoming: .....#HELP (#4357)

## Road Closures:

Roads in Wyoming may close at any time because of crashes or dangerous traveling conditions, including icy roads, blowing snow, hazardous materials spills, fires, snowslides, and landslides.

The maximum penalty in Wyoming for willfully failing to observe road closure gates or other closure signs, markers, warnings, notices, or directions is a \$750 fine and 30 days in jail (W.S. 24-1-109).

## Reminder:

- Conditions at road closure gates may differ from conditions a few miles down the road.
- It is against the law to drive on a closed road without authorization.
- The safest option is to return to the nearest city or town and wait for the road to open.

# Crash Facts

## 2017 Wyoming Traffic Crash Quick Facts

### ***Total Traffic Crashes***

14,130

### ***Total Persons Injured (Non-Fatally)***

3,441

### ***How many drivers were involved?***

19,872

### ***How many vehicles were involved?***

21,316

### ***What type of fatal crashes occurred most often?***

Overturn/Rollover

### ***How many crashes involved 14-20 year old drivers?***

2,590

### ***How many crashes involved trucks?***

1,410

### ***How many crashes involved school buses?***

57

### ***How many crashes involved motorcycles?***

235

### ***In what month did the most crashes occur?***

January

### ***On what day of the week did the most crashes occur?***

Tuesday

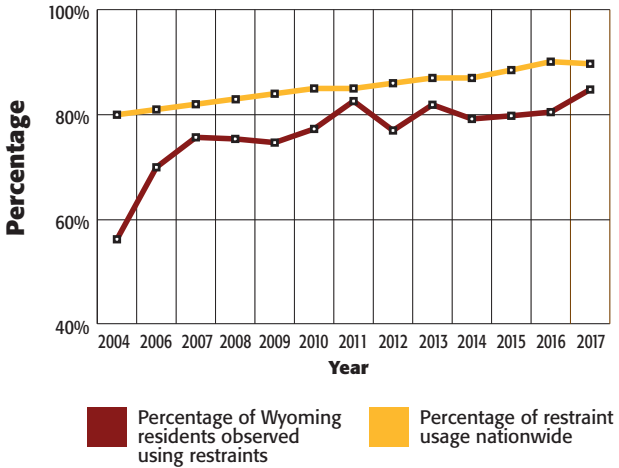

### ***What percentage of crash fatalities was not restrained?***

59 percent

Source: Highway Safety Program

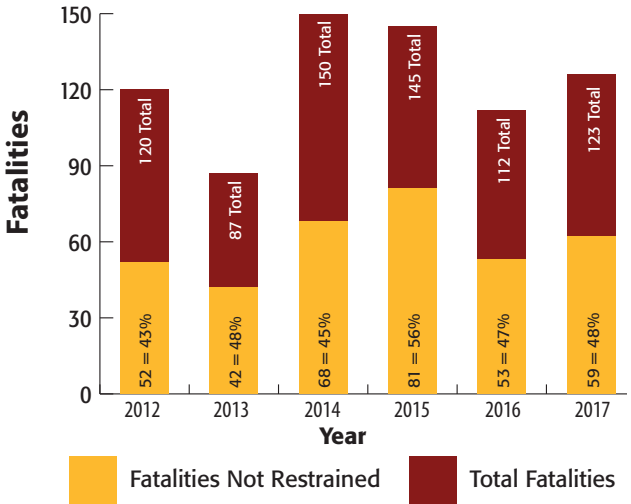

# Seat Belt Usage

*Note: Observed numbers have been verified historically. A new methodology was followed in 2012 establishing a new baseline usage.*

Source: Highway Safety Program

# Non-Restrained Fatalities

**Note:** Data regarding seat belt usage is derived from the Investigator's Traffic Crash Report. It includes drivers and passengers only. It excludes the following vehicles where seat belts are not normally found: motorcycles, off road motorcycles, farm equipment, construction vehicles, mopeds, snowmobiles, ATVs, MPVs, motorized skateboards/scooters, wheelchairs, low speed vehicles, and Segways.

# Truck Size and Weight Limits

<b>Legal Width:</b>	8 ft., 6 in.
<b>Legal Height:</b>	14 ft.
<b>Legal Length:</b>	60 ft. <i>For single units or semi-trailers in a truck-tractor and semi-trailer combination.</i>
	81 ft. <i>For a semi-trailer, trailer, or double semi-trailer combined length in a truck-tractor and semi-trailer, trailer, or double semi-trailer combination including the connecting mechanism.</i>
	85 ft. <i>Any combination of vehicles other than those listed above.</i>
	No combination of vehicles may consist of more than three single vehicles.
<b>Legal Axle Weights:</b>	Single axle – 20,000 lbs. Tandem axle – 36,000 lbs. Triple axle – 42,000 lbs. Gross weight – up to 117,000 lbs. depending on route and configuration

**For oversize or overweight load information call (307) 777-4376 or 777-4747 or visit [www.whp.dot.state.wy.us](http://www.whp.dot.state.wy.us)**

# Road Preservation, Resurfacing, and Reconstruction

## One mile of road in Wyoming costs the following to preserve:

2-lane bituminous preservation:

\$150,000 to \$250,000

4-lane (interstate) bituminous preservation:

\$300,000 to \$800,000

## One mile of road in Wyoming costs the following to resurface:

2-lane bituminous overlay/resurface:

\$350,000 to \$1,000,000

4-lane bituminous overlay/resurface:

\$850,000 to \$3,000,000

## Reconstructing one mile of road in Wyoming costs approximately the following:

2-lane bituminous reconstruction: \$850,000 to \$2,500,000

4-lane bituminous reconstruction: \$1,500,000 to \$3,500,000

4-lane concrete reconstruction: \$3,500,000 to \$4,750,000

*(Reconstruction in mountainous terrain can be substantially more expensive than the flat land reconstruction figures given.)*

## System Size vs. Use

Although the State Highway System (including the 914 miles of interstate) amounts to less than 25 percent of the total number of roads in the state, it carries about 70 percent of the state's vehicle traffic.

# Percentage of Construction Jobs Completed on Time

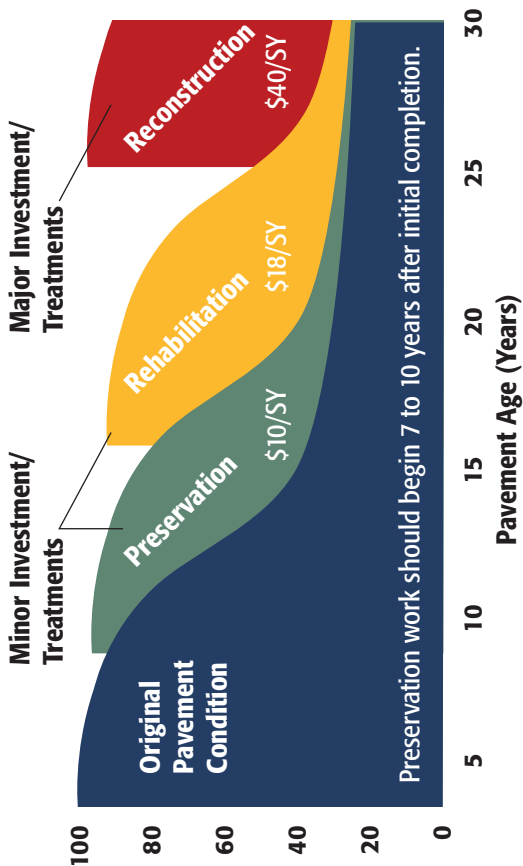

Source: Construction Program

## Annual Cost Underrun or Overrun Expressed as Percentage

Source: Construction Staff

# Road Deterioration vs. Time

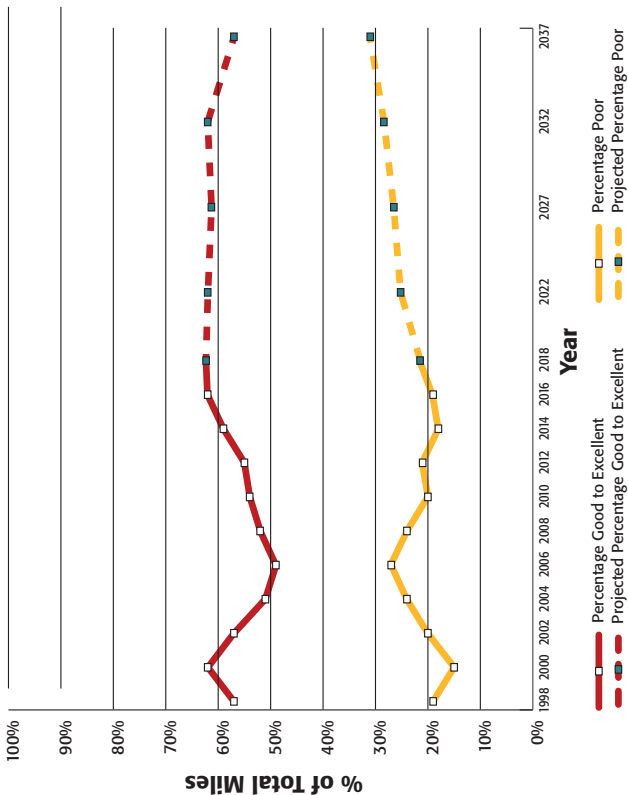

Timely maintenance is the key to getting the maximum life from our pavements. For every dollar not spent on timely preventive maintenance, \$4 to \$8 will be needed for complete reconstruction a few years later.

## WYDOT Transit Program

### Rural Area Program

- Statewide rural public transit program – funded through Federal Transit Administration (FTA) apportionments and state highway funds.
  - ❖ Assists with capital, administrative, and operating expenses statewide.
- Rural Technical Assistance Program (RTAP)
  - ❖ Nearly all the RTAP money is subcontracted to WYTRANS to offer statewide safety and driver training.
- Intercity Bus Program – provides administrative, operating, and marketing assistance to operators to provide service making connections between municipalities both in and outside Wyoming.

# WYDOT Transit Program

## ***Enhanced Mobility of Seniors and Individuals with Disabilities***

This program provides formula funding to increase the mobility of seniors and persons with disabilities. It funds private, non-profit, and government agencies to acquire transit vehicles and related equipment. Often federal, state, and local funds combine to finance these acquisitions.

## ***Rural Area Formula Grants***

Allows for capital, planning, and operating assistance to support public transportation in rural areas, defined as areas with fewer than 50,000 population.

## ***State Planning and Research Programs***

Provides funds to address local, regional, and statewide transit planning including transit development plans, coordinated human service transportation plans, and design and engineering for transit capital projects.

## ***Urbanized Area Formula Program (Pop. Over 50,000)***

Assists with capital, administrative, and operating expenses for Casper and Cheyenne urbanized transit programs.

## ***Bus and Bus Facilities Program***

Transit providers may apply to WYDOT for eligible bus and bus facilities projects.

## ***State Transportation Enterprise Fund***

Grants or loans administered through the State Lands & Investments Board (SLIB) to provide capital investments for enhancing public transportation throughout Wyoming.

# Rest Area and Scenic Byways Map

The National Scenic Byways Program is a grass-roots effort established to help recognize, preserve, and enhance selected roads throughout the United States. The U.S. Secretary of Transportation recognizes certain roads as All-American Roads or National Scenic Byways based on one or more archaeological, cultural, historic, or scenic qualities.

Source: Public Affairs Office

# National Highway System

# WYDOT History in Brief

- 1913 – *Wyoming begins licensing automobiles and requiring license plates.*
- 1916 – *Congress passes the first US Federal Highway Act.*
- 1917 – *The Wyoming Legislature establishes the Wyoming Highway Department.*
- 1918 – *The department produces its first map.*
- 1919 – *Lt. Colonel Dwight D. Eisenhower participates in a cross county military truck convoy; calls Wyoming roads west of Cheyenne “poor dirt ones, with weak culverts and bridges.”*
- 1919 – *The department begins highway maintenance work.*
- 1923 – *The department purchases its first snowplow.*
- 1926 – *U.S. highway route numbering standardized.*
- 1930 – *County designations (based on each county’s assessed valuation) appear on Wyoming license plates for the first time.*
- 1933 – *The Wyoming Highway Patrol is organized.*
- 1936 – *The bucking horse and rider begin to appear on state license plates.*
- 1937 – *The legislature creates the Wyoming Aeronautics Commission.*
- 1947 – *Wyoming enacts a law requiring driver’s licenses.*
- 1952 – *The department produces its first color highway map.*
- 1953 – *The current five transportation operations districts are formed with central offices in Laramie (1), Casper (2), Rock Springs (3), Sheridan (4), and Basin (5).*
- 1956 – *Interstate construction begins in Wyoming after President Dwight D. Eisenhower signs the Federal Aid Highway Act of 1956.*
- 1985 – *Wyoming completes construction of its current 914 miles of interstate highways.*
- 1991 – *The Wyoming Department of Transportation is inaugurated by merging the former highway agency and the Wyoming Highway Patrol with aeronautics, state vehicle registration and license plate production, and other transportation functions.*
- 2017 – *The Wyoming Department of Transportation begins its second century.*
- 2018 – *More than 40 transit providers serve the state.*
