

## Commission Priorities for the Airport Improvement Program (AIP)

---

September 30, 2015

The following priorities are listed for consideration by the Commission for Airport Improvement Program funding.

- Maintain aviation safety and airport security
- Maximize the practical and operational functionality of existing assets
- Enable and enhance economic impact through infrastructure
- Optimize resources
- Support requirements, mandates, or audit recommendations

The above priorities will be administered through the judgment of Aeronautics Division staff to be used in applying system impact points within the Priority Rating Model (PRM), upcoming development of Wyoming State Aviation System Plan (WySASP), and other purposes as determined beneficial or necessary.

*The Division suggests these may be revisited annually or as needed.*

### WAC Mission:

“Enhance the economic well-being and quality of life in Wyoming by working with public and private partners to produce a safe and efficient aviation system.”
