

QUALIFIED TREATED TIMBER SUPPLIERS

Scope: The following suppliers have demonstrated the ability to manufacture treated timber products meet WYDOT Specifications.

Use: Product acceptance is not based solely on being from qualified suppliers; materials testing and/or certification may be required as specified and noted on WYDOT Form T-128, *Construction Test Requirements*, WYDOT Form T-131, *Manufactured Products Received*, and WYDOT Form T-132, *Engineer's Verification of Specification Compliance*.

Note: Qualification may lapse and it is the contractor's responsibility when specifications require to ensure that material suppliers qualifications are current.
